

Consumer & Family
Satisfaction Survey Results

FY 2012-2013
4th Quarter: April to June 2013

Data Collection Methods

Support Incorporated believes consumer and family satisfaction are essential to successful clinical services and achievement of treatment goals.

Satisfaction surveys are designed to be easily completed by all types of consumers. There are 4 different versions of satisfaction survey that correspond to the needs and abilities of those they aim to collect data from:

Consumers Ages 3-5
Consumers Ages 11-15
Consumers Ages 16+
Family, Guardians, and Caretakers

Survey questions are in the form of statements to which the consumers are asked to rate their agreement. The rating scheme is a 5 item Likert scale ranging from "Strongly disagree" to "Strongly agree."

Case responsible staff are not allowed to assist consumers or families with completing surveys. QM staff are available to assist respondents with reading or explaining questions.

3 different categories of data are collected with satisfaction surveys:

Customer Service: Staff professionalism, punctuality, accessibility of services, overall satisfaction with service experience

Risk Management: Crisis response, privacy, knowledge of consumer rights, response to staff turnover, accessibility to case responsible workers

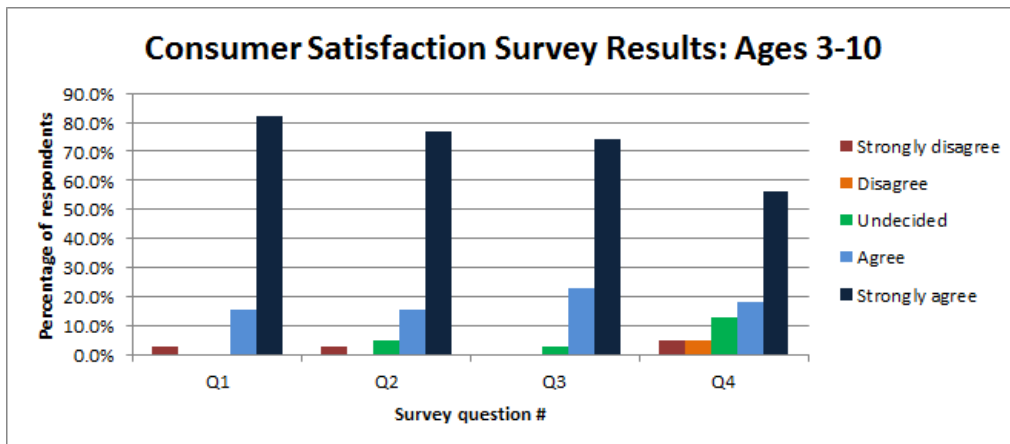

Consumer Empowerment: Choosing treatment goals, symptom management, ability to handle crises, mental health literacy, improvement of personal relationships, self-esteem, accessibility of community resources

Consumer satisfaction surveys are distributed every quarter. For consumers in Day Treatment, QM staff visit each classroom to distribute surveys to ensure confidentiality of the students' responses. At the end of the survey, students fold their surveys and individually place them into a locked box. For consumers in Therapeutic Foster Care, surveys are completed with the assistance of their foster parents, who returns completed surveys into a locked box. Consumers receiving School-Based Therapy complete surveys prior to sessions and then place them in a sealed envelope. All other surveys are distributed by the receptionist before outpatient appointments and then placed in a locked box by the consumer upon completion. QM staff then input survey responses into the web-based system for analysis.

Family, Guardians, and Caretaker satisfaction surveys are also distributed every quarter. For parents of Day Treatment, Intensive In-Home, and School-Based Therapy consumers, surveys are sent home with an envelope. Parents are asked to complete the survey in the privacy of their home, place it into a sealed envelope, and send the survey back with the consumer or give it to staff. Staff then return completed surveys to QM staff. All other surveys are distributed by the receptionist before outpatient appointments and then placed in a locked box by the family member upon completion. QM staff input the survey responses into the web-based system for analysis.

Results & Analysis

Consumers Ages 3-10

Survey Questions:

- Q1-** My worker respects me.
- Q2-** My worker helps me.
- Q3-** My worker is nice to me.
- Q4-** I can talk to my worker about all of my problems.

Analysis:

- Most respondents from this age group were extremely satisfied with their worker’s respectfulness, helpfulness, niceness, and their ability to talk openly with their worker
- Slight indecision and disagreement with respondents feeling like they can talk to their worker about all of their problems

Staff are very helpful, interventions are useful, caring, patient, and understanding

Family, Guardians, and Caretakers

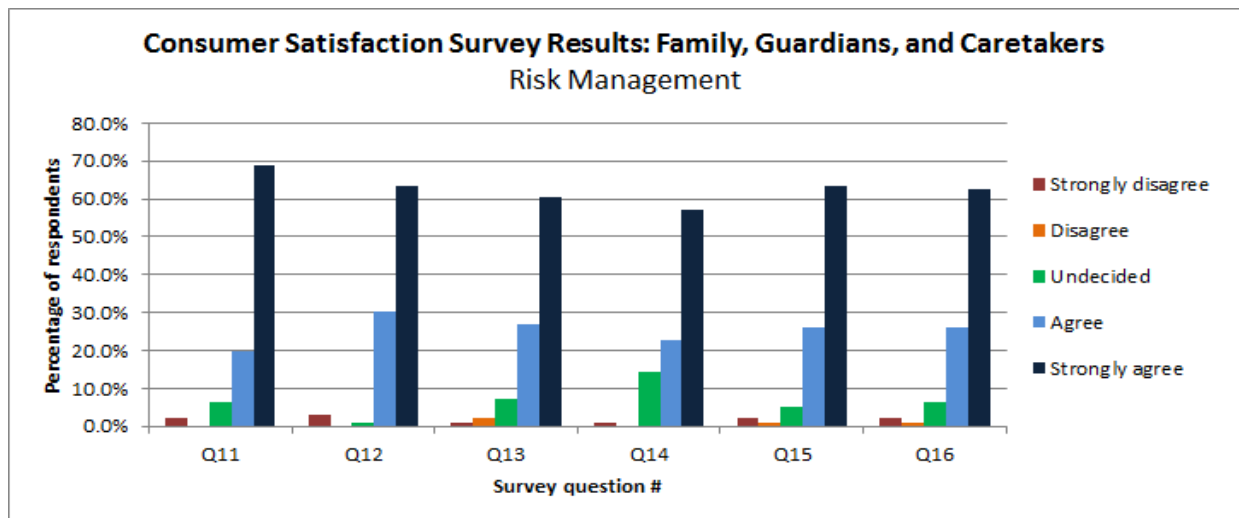

Customer Service Questions:

- Q1-** Staff come to visits on time.
- Q2-** Staff are respectful.
- Q3-** Staff are professional.
- Q4-** I feel my family member has someone to talk to when he/she is troubled.
- Q5-** I would recommend this agency to a friend.
- Q6-** The location of services is convenient.
- Q7-** Services are available at times that are good for my family.
- Q8-** I get to participate in my family member's treatment.
- Q9-** My family and I received a good and complete introduction to services.
- Q10-** Overall, I am satisfied with the services my family receives at Support, Inc.

Analysis:

- Almost all respondents were extremely satisfied with our agency's customer service

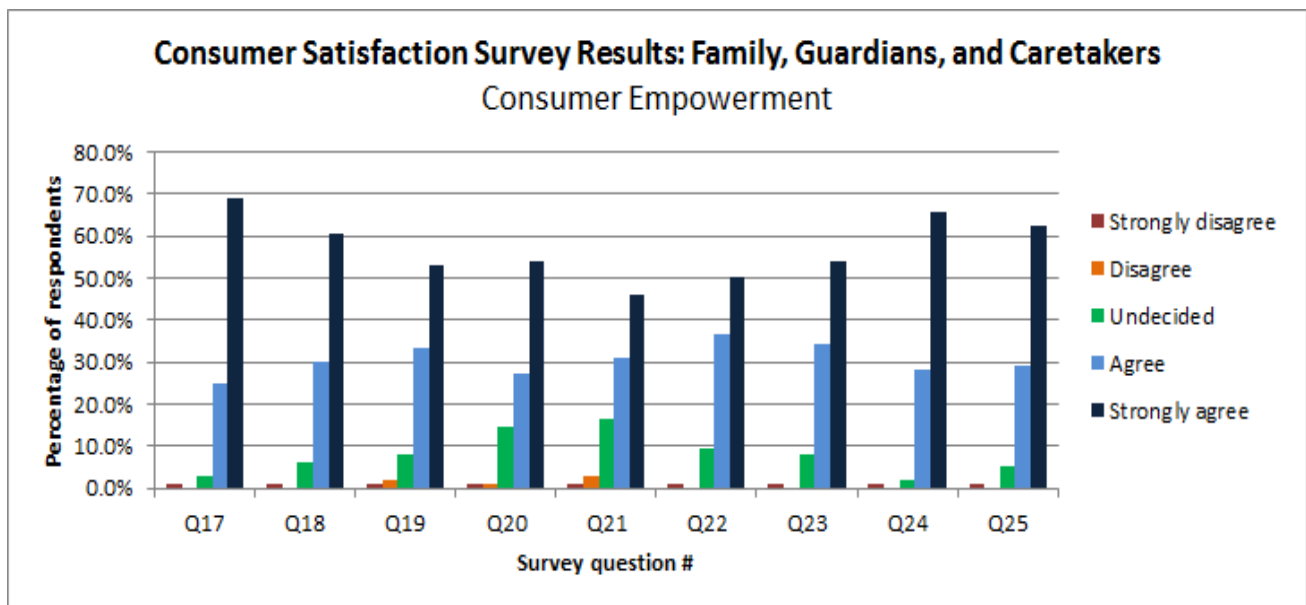

Risk Management Questions:

- Q11-** I feel free to complain.
- Q12-** My family was given information about our rights.
- Q13-** It is easy for me to get in touch with my child or family member's worker.
- Q14-** It is easy for me and my family to access emergency services or after hours services.
- Q15-** My child or family member's worker respects our privacy.
- Q16-** Support, Inc. meets mine and my family's needs by not changing staff too often.

Analysis:

- Again, almost all respondents were very satisfied with our agency's attention to risk management

Q17- Staff here believe my family member can grow, change, and recover.

Q18- I helped choose my child or family member's treatment goals.

Q19- Staff help my family and I access community resources that help us take charge of our life and my family member's illness.

Q20- Since starting services, my family member has learned skills that help him/her get along better with family and friends.

Q21- I have found that my family member's behaviors that most troubled me and other close to us have decreased since starting services.

Q22- My family got the help we wanted for my family member.

Q23- My family got as much help as we needed for my family member.

Q24- Staff explain things to me in a way that I understand.

Q25- Staff helped my family choose the right services based on our needs.

Analysis:

- Most respondents were very satisfied with our agency's ability to empower our consumers over the course of treatment
- Slight percentage (~20%) of respondents were undecided about whether their family member had learned skills that improved their personal relationships and whether there has been a noticeable decrease in troubling behaviors over the course of treatment
